

# AMPASLIP

*Ampaslip is the Ampa Plastics brand name for ready-made plastic slip sheet used to replace traditional wooden pallets when transporting goods.*

Instead of stacking goods onto a wooden pallet and then using a forklift truck to pick up the pallet, goods are stacked on an Ampaslip slip sheet. This sheet is smooth on the underside and scored on one or two edges to create a "flap" that a "grabber" on a modified forklift truck can grab and pull. The goods are then carried and pushed onto trucks or into containers for further transport (push/pull system). Ampaslip sheets are usually designed for one-time use, after which they can either be thrown away or recycled.

### Stock availability

COLOUR, FINISH & SHEET SIZE (sheet size: length x width in mm)	SHEET THICKNESS (mm)
	<b>0.7</b>
<b>AMPASLIP</b>	
BLACK with cross-hatch finish on one side (900 x 1150)	●
BLACK with cross-hatch finish on one side (1280 x 1080)	●
BLACK with cross-hatch finish on one side (1320 x 1080)	●

STOCK IS SUBJECT TO AVAILABILITY. NON-STANDARD SIZES, THICKNESSES AND COLOURS CAN BE MANUFACTURED ON MINIMUM ORDER.

### Key features of Ampaslip

- Requires no further forming or machining (supplied as a finished product)
- Sheets are customised according to the intended end use (ie sheet size, thickness/weight, load capacity and markings are specified on order) and can also be customised for multiple use
- Has better tensile strength than paper or wood (won't tear easily in the bend/grip area)
- Can easily be recycled
- Odourless
- Resistant to moisture and bacteria
- Can be washed using steam and a chemically compatible disinfectant or detergent

### Benefits of Ampaslip

- Low-cost compared to wooden pallets
- Eliminates damage to goods caused by nails sticking out of wooden pallets
- Creates up to 20% more storage space in transport vehicle/container compared to wooden pallets
- Can reduce transport costs by up to 15% due to reduced load weight
- Requires less manpower in terms of repair work and disposal of broken pallets
- Plastic slip sheets are less likely to injure employees than wooden pallets
- After use, Ampaslip slip sheets can be stored for reuse or returned to Ampa Plastics at scrap value for recycling (terms and conditions apply)
- Suitable for use in countries prohibiting the use of wooden pallets
